From

M. Kantaraja Urs Esquire, B.A.,

Excise Commissioner in Mysore.

To

K. R. Sreenivasa Iyengar Esquire, M.A.,

Secretary to the Government of His Highness the Maharaja of Mysore,

General and Revenue Departments.

DIARY No. 5204
19/2-19 13
SECTION SR
FILE No. 268
Serial No. 1

Sir,

In forwarding herewith for your information, copy of letter dated 12th instant from Messrs. Hajee Ismail Sait & Sons, the in-coming arrack manufacturers to the Government of Mysore, urging the necessity for the construction of another wash room in the distillery, I have the honour to state that at present the capacity of the wash backs in use is about 55 candies of molasses daily. This in terms of the out-turn is equivalent to 55 x 30, or 1650, gallons of arrack per day. Taking a month to be one of 30 days, the monthly out-turn will amount to 49,500 gallons. Deducting from this 1,000 gallons on account of wastage, the net out-turn may be reckoned at 48,500 gallons per month.

2. As the issue during the last month has exceeded this quantity and as it is also likely that there

(2

there may be increased issues in the succeeding months also, it seems necessary to add another wash room, for which extra rent will be demanded from the manufacturers.

3. I therefore request that the same may be sanctioned and the Chief Engineer kindly addressed to take up the work on hand immediately.

I have the honour to be,

Sir,

Your most obedient servant

Excise Commissioner.

Enclosure to S.R.1
8/2668-12 (3

Letter dated Bangalore, 12th June 1913, from Messrs. Hajee Ismail Sait & Sons, English Warehouse, to the Excise Commissioner in Mysore.

With reference to the supply of Spirits against our contract, we have the honour to point out that on account of the very heavy increase in consumption the wash space is now proving insufficient.

Using molasses for wash our utmost capacity working every day in the month would be only about ~~48~~ 48,000 gallons, whereas last month the issues amounted to over 52,000 and this month it seems likely to be more.

Under these circumstances it is also likely necessary that another wash room should be constructed atonce otherwise we are afraid we shall not be able to meet your requirements.

We have given instructions for the preparation of the new Vats for this room and trust that you will kindly arrange with the Government for early sanction of construction, as we deem this of very great importance.

Awaiting the favour of your early reply.

"C o p y."

Excise Commissioner.

Request the Chief Engineer to take action in the matter immediately.
